

## **GEN3 - The DS E-TENSE FE23**

Pinnacle of efficiency and performance

**Powertrain designed by DS Performance Team**

**Electric motor delivering up to 350kw of power (476 CH)**

**Top speed of 280km/h**

**First car with both front and rear powertrains**

**Front powertrain adds 250kW to the 350 kW at the rear**

**Doubles the regenerative capability to a total of 600kW**

At least 40% of the energy used within the race will be produced by regenerative braking during the race.
